

SELF-EDIT.COM
COMPLETE, PERSONAL CONTROL OF YOUR WEBSITE

HOME PAGE | WEBSITE DESIGN | WEBSITE HOSTING | DESIGN PORTFOLIO | CONTACT US

Take a moment and imagine . . . Having complete, personal control over your own editable website.

Imagine . . . making any changes to your site, wherever you want, whenever you want. 24/7, 365 days a year.

Imagine . . . adding new pages, updating price lists, introducing new products, and informing your mailing list.

Imagine . . . updating your web site from any Internet-connected computer anywhere in the world.

Imagine . . . altering your web site content until it's just exactly how you want it.

Imagine . . . not having to learn any complicated special software or programming languages to do so.

Imagine . . . never calling web technicians and pleading with them to make changes on your site.

Imagine . . . not having to wait weeks for a change. Only to discover that it's not quite what you wanted.

Imagine . . . complete, personal control of your web site content.

Imagine . . .

Many business owners are no longer imagining. They've taken control of their websites by using Self-Edit™ Technology. If you know how to use a Word Processor, you **CAN** update your website. You can upload pictures, update pricing, write your mailing list, or even add a new product to your storefront!

"Thank you, Self-Edit.com, for making web page design so easy, in spite of the fact that we had no experience with designing web pages."

"The staff at Self-Edit are very knowledgeable and our web site turned out fantastic. They were exceptionally helpful by first assessing our needs then providing us with creative suggestions and insightful guidance. We appreciate their continued support, as it allows us to stay current with any changes that are needed to keep our web page up-to-date."

- Mick Hurd, Owner, Harbour City Contact Lens Services

<http://www.gasperm.com/>

We know what it takes to create powerful websites that will increase sales, enhance customer relationships and improve your everyday business activities. The bottom line is, our patented Self-Edit™ Technology helps to make your business run more efficiently by saving you time and money. With Self-Edit™ there's no longer a need for your company to hire a full time web development staff to keep your website up to date.

In fact, most tasks are only two clicks away.

Click... Click... New Picture Added

Click... Click... New Product Added

Click... Click... New Page Added

Click... Click... Prices Updated

It's That Easy!

By having such an easy Self-Edit™ website, we have increased our revenues by over \$105,000 in the last 12 months, with little effort on our part. What you provide really and truly works. Keep up the good work.

How would you like to be able to update your website yourself? How would you like it if there was no extra cost to do this? Now you can take control of your website and update it any time of the day or night instantly!

No kidding, with today's technology it doesn't take some computer genius to update your web site, you can do it completely yourself without learning any programming languages.

I am writing to say how pleased I am with our Self-Edit™ program.

I... studied web design & took web design courses but found that getting everything up and running was too time-consuming for an extremely busy 'one-girl office.'

Self-Edit makes it all so easy and you don't need to know anything about web design. Your technicians' patience and their ability to

explain things in terms that can be understood is very much appreciated... especially... when we were starting up.

- Carolyn Pera, Administrative Assistant

<http://www.stmatthewsanglicanchurch.com>

You don't have to imagine anymore.

It's easy to get started... and there is NO obligation.

To find out how to start using your Self-Edit™ editable website just complete the simple form below or call (toll free):
